Privacy - Terms

New User Registration

- After clicking on Register button in RioCrypt, it redirects to the browser.
- Enter all the details on this page.
- Click on Sign Up button. It will send the mail to that registered mail id.
- User needs to activate that account.

Your account with RioPlay (Existing User)

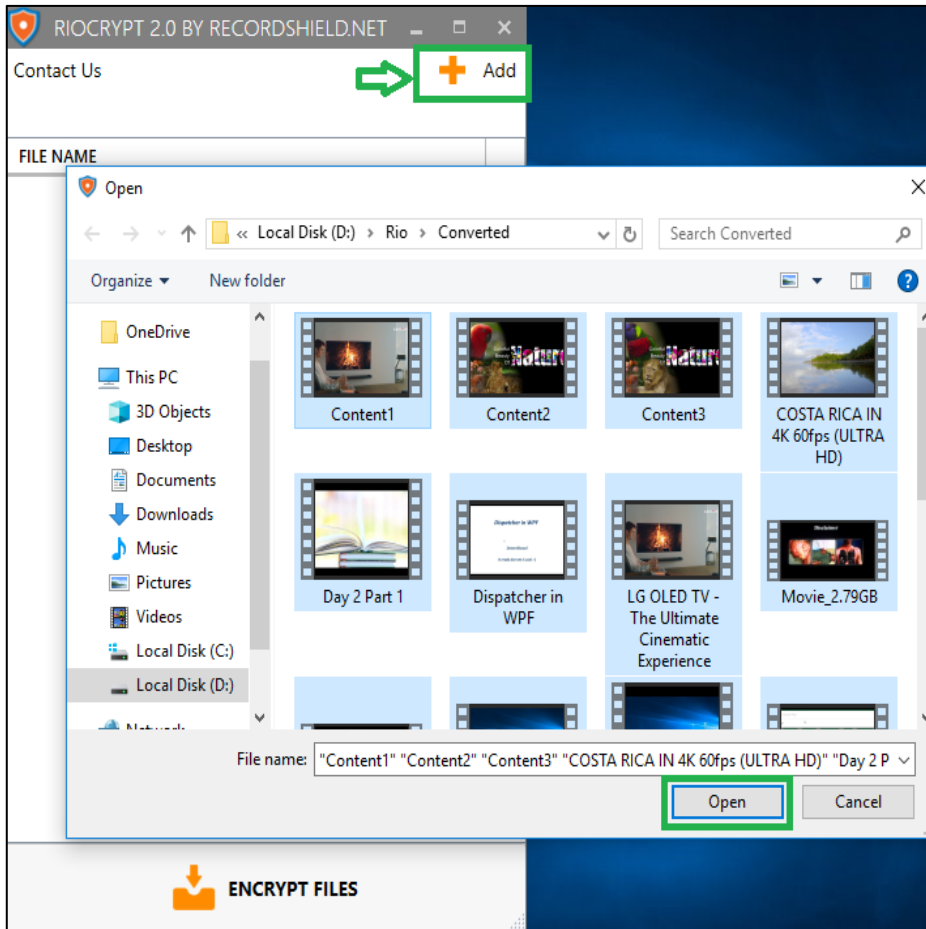

The screenshot shows a web browser window titled "RIOCRYPT 2.0 BY RECORDSHIELD.NET". The main content area is white and contains the text "Login to RecordShield.Net". Below this text are two input fields: "Username..." and "Password...". At the bottom of the form are two buttons: "Login" and "Cancel".

Existing User (Login)

- If you are existing user you can login with your credentials.
- Your username is your email ID and your password is “your entered password while new user registration”.

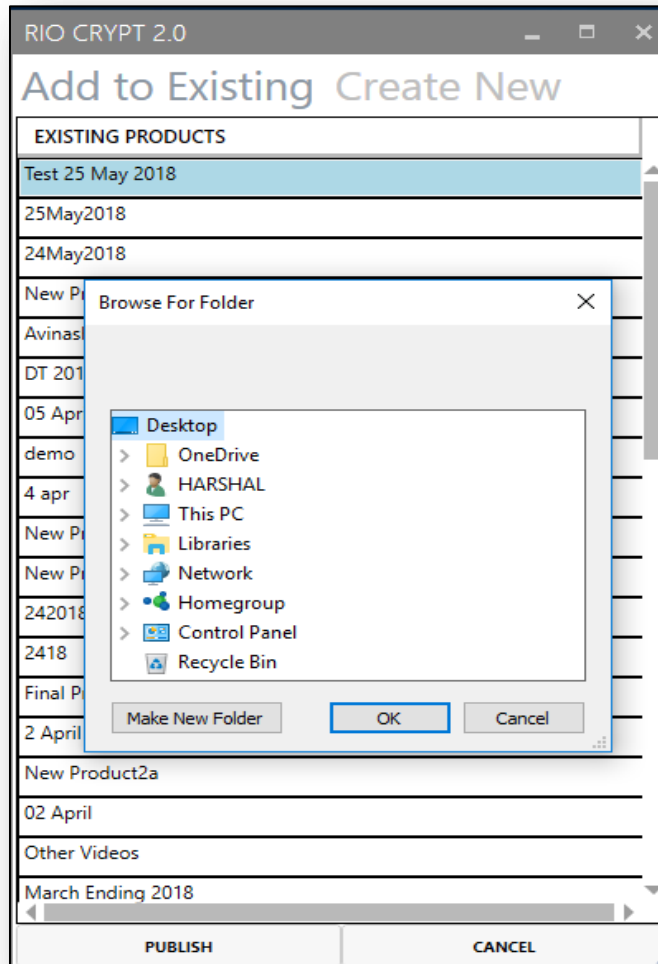

How to Encrypt the Videos

- Click on “Add” button. It will open the dialog to browse the original videos.
- **It will only support MP3, MP4, M4V files, other files will not be Supported.**
- After browsing the videos, it will show video list in the left panel as below. Click on “Encrypt Files” button.

Add to Existing Product

- If user wants to publish the encrypted files in as existing product Ex. DT 2018, then select “DT 2018” in the product list & click on Publish button.
- Now select the destination folder.
- It will start publishing those videos.

Product Information

Dummy Product

Dummy Product

* Views 10

* Watch Time 1.8

* Validity 12 Months

NEXT

- Here are some parameters on the “**Create New**” page.
- Enter the Desired Product name in the field.
- Enter the product description.
- **Views:** Select the views from the dropdown as desired. Here Views means “the count defined as how many times the user can open & close the same video.” Here I selects as 50. Means user can open the particular video 50 times.
- **Watch Time:** Select the Watch Time for the video. This decides the limited length of the video which user can see. Ex. 1.8 times, the user can see the video at time length limited at 1.8 times the original length.

Destination Information

SELECT PUBLISH FOLDER

PREVIOUS PUBLISH CANCEL

- **Validity in Days:** Select the validity of the product, it limits the usage date from the registration up to the selected validity. User can select the validity for 1 day to Unlimited, splits in months.
- Here, enter the **Faculty name, description, Email Id & Mobile No.**
- **Allow Second Screen:** If user wants to give the functionality of the “Dual Display” for the RioPlay user, then he has to click on the checkbox in front of “Allow second screen”. Here, the RioPlay user can play the videos using the second Screen using the HDMI cable also.
- Now, user has to select the Destination path for the “**Published files**”. Now click on “**Browse Publish Folder**” & select the desired path.
- Click on **Publish** Button, it will Encrypt the videos.

Encryption Completed & .rio files

After encryption done, the videos can be open in the RioPlay by double clicking the .rio file if the RioPlay is installed on that computer.
